
EF2600

PREMIUM Series

(L x W x H) 20.1" x 16.3" x 16.7" / 92.6 LB

Rugged, lightweight and feature-packed, the EF2600 is an excellent compact generator for the home or work site, with the power to run many appliances as well as power tools. Compact and only 92.6 pounds, our smallest Premium Generator nonetheless comes with a big 2.9-gallon fuel tank (with gauge) that provides 7.8 hours of run time on a single tank of gas, along with non-fuse thermal breaker circuitry. Our Oil Watch Warning System protects the EF2600's heavy-duty 171cc engine, and a rugged rollover frame protects the outside. A mechanical governor delivers consistent engine speed for smoother power, while rubber mounts and a quiet muffler keep the noise to a minimum.

EF4000D/EF4000DE

PREMIUM Series

(L x W x H) 26.4" x 20.1" x 22.7" / 180.8 LB

E: (L x W x H) 35.2" x 20.5" x 22.7" / 196.2 LB

Go ahead and power up both 120- and 240-volt equipment with either of these new compact and powerful generators—anything from air conditioners to power drills. A rugged 357cc Yamaha engine has no trouble spinning out 4000 watts of power from the maintenance-free brushless alternator, and they've got all the perks, too: Transistor Controlled Ignition helps them fire right up and run super smooth; Noise Suppressor reduces interference with TVs and radios; Oil Watch Warning System prevents engine damage; and Economy Idle reduces fuel consumption and noise. Plus, the EF4000 DE adds the convenience of push-button electric start! Whichever one you choose, they're each perfect for the jobsite, RV and home backup.

BATTERY NOT INCLUDED.

EF5200D/EF5200DE

PREMIUM Series

(L x W x H) 26.4" x 20.1" x 22.7" / 189.6 LB

E: (L x W x H) 35.2" x 20.5" x 22.7" / 205 LB

All the great features and reliability of the EF4000DE with a little more oomph—5200 peak watts to be exact—enough to run most residential well pumps, multiple power tools simultaneously and major appliances. A reliable 357cc Yamaha four-stroke engine runs for up to 7.4 hours on a single tank of fuel, and Yamaha engineering keeps the noise down to a quiet 73 dBA. It gets all the Yamaha good stuff as well: AC Non-fuse Thermal Breaker Circuitry, TCI, Brushless Alternator, Oil Watch Warning System... and even with all those features and power, the EF5200D weighs just 189.6 pounds. Plus, for those wanting the convenience of electric start, the EF5200DE adds push-button start to the list.

BATTERY NOT INCLUDED.

EF6600D/EF6600DE

PREMIUM Series

(L x W x H) 26.4" x 20.1" x 22.7" / 189.6 LB

E: (L x W x H) 35.2" x 20.5" x 22.7" / 205 LB

Welcome to the power big leagues for home backup or the worksite. The same size as our EF5200DE, the new EF6600DE's powerful 357cc engine helps it put out a full 6600 watts of power—enough juice to run well pumps, air conditioners, refrigerators—and enough to be the main power source for the typical cabin or home in an emergency. This one's got it all: OHV Engine, Brushless Alternator, Oil Watch Warning System, Noise Suppressor, Economy Idle, Transistor Controlled Ignition and so much more. Plus, the EF6600DE gives you all this and electric start for total ease of operation. More power to you.

BATTERY NOT INCLUDED.

EF12000DE

PREMIUM Series

(L x W x H) 33.3" x 29.6" x 33.3" / 327.8 LB

Power hungry? Just cut to the chase, and wheel in our most powerful generator: 12,000 watts should be enough to satisfy whatever you need to power up—120 or 240 volts. The EF12000DE's brush-type AVR AC alternator draws its motivation from a powerful, reliable 653cc twin-cylinder engine that'll run up to eight hours between fill-ups. We wouldn't send our flagship out there without the full complement of features: Oil Watch Warning System, Auto Voltage Regulation, Transistor Controlled Ignition, Noise Suppressor, GFI, Electric Starting and Economy Idle—you name it, this powerful generator's got it.

BATTERY NOT INCLUDED.

PW3028

PRESSURE WASHER

(L x W x H) 24" x 26" x 41.5" / 96 LB

Clean powerfully with the incredible new PW3028 pressure washer by Yamaha. Designed to make every washing job easier and faster, it's built with durability and versatility. A 5-in-1 nozzle with pressure ranging from 800–3000psi lets you wash everything from sensitive decals to mud-caked fenders. The pivoting tip can be adjusted to spray up, down and around tricky corners. Power is delivered by a quiet 192 cc Yamaha engine with low oil shutoff, automatic idle down, brass triplex plunger CAT pump, 30 ft braided steel high pressure hose and brass quick release couplers. Plus, a sturdy frame with a quick-release fold down handle, a built in detergent tank and 13x5x6 never-flat tires that roll easily over any terrain.

THE PERIOD OF WARRANTY: Any new Yamaha generator or pump purchased from an authorized Yamaha Outdoor Power Equipment dealer in the United States will be warranted against defects in material or workmanship for a period of three (3) years from date of purchase for pleasure or (except EF1000iS) commercial use. Yamaha EF1000iS generators purchased for commercial use will be warranted against defects in materials or workmanship for a period of two (2) years from the date of purchase, subject to exclusions noted herein. Any new Yamaha Pressure Washer purchased from an authorized Yamaha Outdoor Power Equipment dealer in the United States, will be warranted against defects in material or workmanship for a period of three (3) years from date of purchase for private, non-commercial use, or one (1) year from the date of purchase for commercial or rental applications. See your dealer for details. Read the owner's manual for your generator, pump, or pressure washer carefully before operation. Check the maximum wattage output of the generator selected against the maximum wattage requirement of the tool or appliance to be used before operating. Batteries for EF4000DE, EF5200DE, EF6600DE and EF12000DE not included. CAT Pumps® is a registered trademark of Diversified Dynamics Corporation. Yamaha reserves the right to change specifications without notice. For the Yamaha dealer nearest you, call 1-800-88-YAMAHA. Printed on recycled paper in the U.S.A.

EF1000iS

INVERTER Series

(L x W x H) 17.7" x 9.4" x 14.9" / 27.9 LB

There's no excuse to be caught without power when the 27.9-pound, easy-to-carry EF1000iS is so easy to own. The EF1000iS is so compact and unobtrusive you'll enjoy using it almost anywhere: Noise Block design technology keeps it nice and quiet. And it's so efficient, thanks to Smart Throttle, that this little generator will run up to 12 hours on just 0.66 gallon of gas—easily powering up small appliances, computers, TVs and satellite systems with clean power from Yamaha's Pulse Width Modulation Inverter system. It even comes with cables for recharging 12-volt batteries.

EF2000iSH/EF2000iS

INVERTER Series

(L x W x H) 19.3" x 11" x 17.9" / 44.1 LB

The ingenious EF2000iS. Powerful, portable and retro cool, it delivers maximum output with minimum effort. Weighing a mere 44.1 compact pounds, it features an extra-large handle for easy transport to your campsite, work site, fishing spot—almost anywhere. Fitted with Yamaha's most technologically sophisticated muffler, it's whisper quiet. And if you need extra juice, the EF2000iS has you covered—a convenient parallel function lets you connect two generators to deliver up to 30 maximum amps. Meeting the strictest environmental standards, it's simply the smartest way ever to power up. Also available, EF2000iSH RealTree® AP™ Limited Hunter Edition.

EF2400iSHC

INVERTER Series

(L x W x H) 20.8" x 16.5" x 18.2" / 75 LB

The EF2400iSHC. HC stands for High Current, which means extra power to help start your motor-driven electric devices. This model uses Yamaha's powerful 171cc overhead-valve engine, contains all the latest Yamaha Inverter technology and puts out 2400 maximum watts of clean, pure power—enough juice to crank up a high-efficiency 13,500 BTU RV air conditioner. All in a package that weighs a mere 75 pounds! Which means the new EF2400iSHC is not only super quiet, but highly portable as well.

EF2800i

INVERTER Series

(L x W x H) 19.2" x 15.6" x 16.7" / 68 LB

There's a bunch of power and big-time features built into this compact 68-pound Inverter generator. Rated at 2800 maximum watts of output, this generator has an exceptional power output-to-weight ratio—and Pulse Width Modulation produces high-quality, clean electricity that's ideal for powering computers and electronic appliances. Other features include AC and DC output, Smart Throttle that matches engine speed to current draw for delivering optimal fuel economy, an Oil Watch Warning System and AC non-fuse thermal breaker circuitry and the list goes on. We're talking big, reliable power in a small package.

EF3000iS

INVERTER Series

(L x W x H) 26.8" x 17.5" x 21.9" / 136 LB

Powerful and super-quiet, this recoil-start generator features Noise Block, our unique sound-reduction system that provides unbeatable noise dampening; Smart Throttle load-sensing rpm control that offers greater fuel efficiency and noise reduction by automatically adjusting engine speed to match the load; Inverter System with Pulse Width Modulation (PWM) control that lets you safely run products with built-in microcomputers, or microcomputer-controlled electric tools; plus Yamaha's unmatched quality with standard three-year warranty. All of which make it the best value in the 3000-watt class.

EF3000iSEB

INVERTER Series

(L x W x H) 26.8" x 17.5" x 21.9" / 154.3 LB

Get ready for clean, quiet power. Lots of it. Because the EF3000iSEB is one of the world's most technologically advanced inverter generators. It feature Yamaha's performance-enhancing features, including Inverter Technology, Noise Block, Smart Throttle, Pulse Width Modulation, Oil Watch Warning System (for preventing engine damage) and built-in wheels for smooth, easy portability. It offer an incredible 19-hour run time at one-quarter load. Plus, the EF3000iSEB goes one step further with Yamaha Boost Technology™ for an extra boost of power to start up big air conditioners and heavy-duty power tools. It's the perfect choice for fifth wheels or travel trailers.

EF4500iSE

INVERTER Series

(L x W x H) 30.7" x 24.3" x 27.2" / 194 LB

The EF4500iSE picks up where our extremely successful EF3000iSEB leaves off, with even more power and fuel efficiency in a quiet, portable package. Designed for maximum fuel efficiency and minimum noise, its super-powerful engine allows it to run at the very low engine speed of just 2600 rpm—1000 rpm lower than other generators in its class. That slow engine speed pays off big time in reduced fuel consumption as well as less noise, vibration and engine wear. Naturally, it's got all the advanced features you expect from Yamaha, including an optional wireless remote control. The EF4500iSE truly is the ultimate RV accessory.

EF6300iSDE

INVERTER Series

(L x W x H) 30.7" x 24.3" x 27.2" / 200 LB

Cranking out up to 6300 watts of pure sine wave inverter power, its fully enclosed casing makes it ultra quiet. And with sophisticated capabilities like dual 120-volt and 240-volt power, you can run almost any type of equipment with total confidence. From high-demand equipment such as well pumps, compressors and RV air conditioners to sensitive electronics like plasma TVs, satellite receivers and computers, the EF6300iSDE is ideal for outdoor recreation and power outage emergencies. Its excellent fuel efficiency means a run time of 13 hours at a constant one-quarter load on just a single tank of gas. Plus, its GFCI outlet and low noise level mean it's perfect for starting early or working late on the construction site—making it the one workhorse you can't be without.

WORKSHEET
Application

GENERATOR SIZING

The first thing you need to do is determine what size generator would work best for your particular requirements. This section will help walk you through that process.

When purchasing a generator, it's important that you select one that's capable of meeting your energy requirements. You must match the rated output of the generator to the maximum anticipated power to be used.

This section will assist you in estimating the power requirements so you can purchase the generator that will satisfy your needs. This includes using the accompanying worksheet to make a list of the tools and appliances you expect to operate, as well as the approximate power requirements for each device.

Once you have the list, you can estimate the highest demand that will be put on the generator under the "worst-case" conditions. With this figure, you can determine the appropriate model Yamaha generator for your particular needs.

TAKE IT STEP-BY-STEP

Follow these steps when determining your energy needs:

1. Identify the wattage requirements for the tools and appliances that you want to power. The power requirement for the tool or appliance can be found on its identification plate or in the owner's manual. If the power requirement is given in amps, multiply the amps times volts to determine the required watts.

Amps x Volts = Watts

2. Add up the required watts of all the tools and appliances you expect to operate simultaneously.

3. The total watts determined in step 2 is the size Yamaha generator you need. These three simple steps will "size" a generator.

General guidelines shown. Your specific needs may vary. For more information, visit *yamaha-motor.com/generators*

To learn what size generator is right for you, scan here or visit Yamaha's YouTube channel and search "Generator."

GENERATOR, PUMP and PRESSURE WASHER
Accessories

A. GENERATOR & WATER PUMP COVERS Protect your investment during storage with a cover made from premium SunLast® polyester fabric. This UV-resistant material fights fading, while protecting your equipment from the elements. A special urethane coating lets moisture escape from underneath, while remaining water repellent. The cover is mold and mildew resistant, as well as tear and abrasion resistant for durability.

Fits EF1000iS ACC-GNCVR-10-01
(Includes storage pocket for owner's manual, tool kit and battery-charging cables.)

Fits EF2000iS and EF2000iSH ACC-GNCVP-20-01

Fits EF2400iSHC ACC-GNCVR-24-01

Fits EF2600 and EF2800i generators and water pumps ACC-GNCVR-26-01

Fits EF3000iS/EB ACC-GNCVR-30-01

Fits EF4000D/E, EFS2000/E, and 6600D/E ACC-GNCVR-46-01
(Note: Fits all listed models, including electric start and non-electric start models, with or without the accessory wheel kit.)

Fits EF4500iSE and EF6300iSDE ACC-GNCVR-45-01

B. GENERATOR WHEEL KITS For ease of maneuverability, these wheel kits are ideal. Heavy-duty solid rubber tires to eliminate flats. Handles are made to fold down to reduce space requirements and potential damage. Fits EF4000D/E, EFS2000/E, EF6600D/E ACC-WHEEL-KI-TP

C. REMOTE STARTER KITS Extra convenience for getting up and going when you need to. Features a 33-foot cord with remote starter switch. Available for all electric-start premium models. 7VW-Y8720-00-00

D. WIRELESS REMOTE CONTROL
For EF3000iSEB ACC-GNRST-50-00
Replacement transmitter (key FOB) ACC-GNRST-30-20
For EF4500iSE and EF6300iSDE 7XF-Y8600-00-00
Replacement transmitter (key FOB) 7XF-86261-00-00

E. YAMAHA ENGINE METER To help you maintain your generator at proper service intervals, the intervals are preprogrammed into this meter (10 hours initial, every 50 hours thereafter). Upon reaching the specified service interval, the meter displays a flash alert for a two-hour period. Includes hour meter and tachometer functions. Works with all Yamaha gasoline generators and pumps.
Deluxe Hour Meter & Tachometer ENG-METER-4C-01
Deluxe Hour Meter ENG-METER-2C-01

F. PARALLEL POWER CABLES The fast and easy way to combine the power of two Yamaha EF2000iS or EF2000iSH Inverter generators with a standard RV 30AMP shore power cord. Works with Yamaha Inverter EF2000iS and EF2000iSH
ACC-QSSS5-70-01

G. TWIN TECH™ CABLE Connect two EF2000iS generators in-line with a Twin Tech cable and output for Max 30AMPs and Rated 25AMPs of power. For use with EF2000iS and EF2000iSH Inverter Generator 7DK-Y8579-10-00

H. RV ADAPTER KIT Plug has a 30A receptacle for RV use. Required if connecting the Twin Tech cable to RV. ACC-RVADP-PL-UG

I. REPLACEMENT BATTERY
EF3000iSEB: YTX-12BS0-00-00
EF4500iSE and EF6300iSDE: YTX-20LBS-00-00
EF12000: NS4-00000-00-00 (<23°), NS4-02000-00-00 (>24°)
All other gasoline models: C60-N24LA-00-00

J. YAMALUBE® PERFORMANCE ALL-PURPOSE 10W-30
Performance-blended engine oil using high-quality mineral base stocks. Excellent protection and technologically superior additives make this oil exceptional. Meets or exceeds all factory recommendations for use in Yamaha engines, and meets or exceeds JASO MA guidelines and standards. (Consult your authorized Yamaha dealer for pricing and specifications.) Quarts LUB-10W30-GG-12
5-Gallon Pails LUB-10W30-GG-05
55-Gallon Drums LUB-10W30-GG-55

K. FOAM AIR FILTER OIL Helps protect against dirt, dust and water. For use only with foam air filters. 1-Pint Bottle ACC-FOAMF-LT-ER

L. FUEL STABILIZER & CONDITIONER PLUS
Helps resist phase separation, deters ethanol corrosion, and keeps stored fuel fresh.
12-oz. Bottle ACC-FSTAB-PL-12
32-oz. Bottle ACC-FSTAB-PL-32

M. AM/WATT™ APPLIANCE LOAD TESTER BY RELIANCE CONTROLS
Gives quick, accurate readout of watts or amps used by 120 volt AC electrical devices (1875 watts maximum) such as: refrigerators, dehumidifiers, space heaters, holiday lighting, coffee makers, hair dryers and much more. This tester is also perfect for matching appliance loads to generator power output. ACC-0SS58-40-44

N. SURFACE CLEANER Connects directly to your pressure washer's wand for even, streak-free cleaning of large surfaces. 4X faster than a standard nozzle.
ACC-31056-00-13

O. GARDEN HOSE ADAPTER KIT Quick-connects your garden hose directly to your pump for pressure washer cleaning. ACC-31054-00-13

P. TURBO NOZZLE Delivers a powerful, rotating spray and cleans up to 50% faster than standard nozzles. Connects to any gas pressure washer. ACC-31048-00-13

Q. GUTTER CLEANER Two high-pressure water jets blast away debris for faster gutter cleaning. Quick connects to any gas pressure washer. ACC-31051-00-13

R. TELESCOPING POLE Lightweight attachment for your high-pressure hose makes cleaning high-up surfaces easy. Adjustable to any height between 7 and 16.5 ft.
ACC-31044-00-13

S. REPLACEMENT WAND Ideal upgrade for old pressure washer spray wands. Durable stainless-steel construction, brass fittings, 27 in. length. ACC-31049-00-13

T. WAND EXTENSION KIT Quickly adds 36 inches of extra reach to your pressure washer wand for easier cleaning. ACC-31053-00-13

U. 5-PIECE NOZZLE KIT Get the right spray pattern for every job, from tough to delicate, with this 5-piece nozzle set. ACC-31055-00-13

V. STEEL BRAIDED HOSE High-pressure hose with steel-braided construction for durability. 30 ft long. Extendable with other hoses for more reach. ACC-31057-00-13

W. CAT PUMP OIL Premium grade, custom blend oil promotes better performance and longer life for your pressure washer's pump. ACC-31045-00-13
